This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

* For dates of returns see subsequent statements, Nos. 42 and 43.

A Exclusive of officers on leave from Bengal; whilst those of Madras and Bombay are included.

B Madras and Bombay staff corps officers are included, but those of Bengal are excluded, excepting such as are serving with the regiments to which they may be attached, also Bengal officers attached to Civil Force; officers on leave as in Note A.

C Includes European troops, of Bombay Presidency only, serving in Abyssi nia.

D Includes the Native troops of all three Presidencies, serving in Abyssinia.

E In 1868 Bengal and Bombay regiments received augmentation, nearly the whole of which was struck off in the following year, leaving the supernumeraries to be absorbed.

Note.—The figures contained in the above and following statements have been taken from the Returns of the Adjutant-General, but when the information regarding certain regiments is not given by that officer, for the same date, then the particulars supplied by the Quarter-Master-General have been taken to show the strength:—

The above and following statements, though differing from similar returns furnished in previous volumes of this work, approximate more closely to accuracy than heretofore, inasmuch as the information has been compiled from results derived by the operations of a committee specially appointed to investigate military finance, which results have been as carefully extracted as the incomplete nature of the military returns received from India would permit.

A, B, C, D, E. For notes see previous page.

Note.—The information under head of Civil Force comprises the Punjab, Rajpootana, and Central India forces, the Hyderabad contingent, and other local troops, but not the Mysore troops nor the Nair Brigade; and has been taken from Returns of the Quarter-Master-General, excepting the strength of the Hyderabad contingent for the years 1862 to 1865, which has been returned by the Adjutant-General of Madras. All other information has been taken from Adjutant-General's returns.
